

PROPER ASSEMBLY & WEAR OF THE W&W BAG AND BUCKET STRAP

W&W
WELLS & WADE
Harvest Equipment

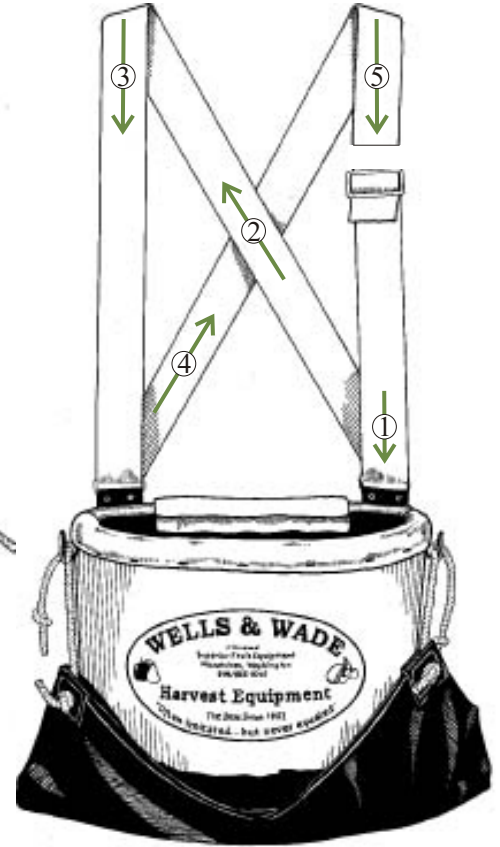

Step 1 completed.

The free end of the strap goes in first and leads through the entire process.

All steps completed.

All steps completed.

Begin by holding the back of the bag or bucket against the front of your body (resting it on a table in front of you while holding it may make it easier).

- 1) Put the free end of the strap through the front of the strap slot on your left hand side; pull through the back until the strap slot stops the buckle (the front of the buckle must be facing forward).
- 2) Pull the strap across your back and up over your right shoulder.
- 3) Pull the strap down to the strap slot on your right hand side, through the front of the strap slot and out the back.
- 4) Pull the strap across your back and up over your left shoulder.
- 5) Thread the strap through the buckle and adjust as needed.

PROPER WEAR OF STRAPS AFTER ALL STEPS ARE COMPLETED
